Vehicle Offer: Lada Niva Legend LCV Box

Basic Technical Description

The LADA Niva Legend LCV AMC Singlecab Box has its roots in the ageless three-door Niva Legend. However, after being modified by an in-house factory tuner, it offers a unique combination of two platforms. The rear enclosed dustproof box is placed on a special frame with high torsion. The passenger cab is self-supporting. The suspension of the front independently suspended axle is solved by coil springs in order to maintain driving comfort, but the rear rigid axle is supported by leaf springs, due to needs for a higher payload capacity. The longer wheelbase, vibration absorbers, modernized chassis and full-time 4WD ensure excellent drive abilities and above-standard off-road capabilities.

additional info

The LADA Niva Legend LCV AMC Singlecab box has a very simple construction, and with that comes great durability. That's why there are many important components which are operated manually. A completely separate chapter is the rear body mounted on a special frame, which is connected to the self-supporting cabin. The dust-tight lockable box then enables the transport of various materials or goods, due to the vehicle's capabilities even in the most demanding off-road conditions.
